## Work Experience

|           | <b>C++ Developer</b> , <i>Codesealer ApS</i> , Ballerup.<br>Currently working as a C++ developer at Codesealer ApS. I ported our large C++<br>(Windows) application to AIX, Linux and Solaris - main area of responsabillity<br>is currently keeping the code portable between platforms/compilers and fixing<br>platform specific issues.<br>I also manage a number of our internal systems, such as; Firewall, DNS server,<br>NTP server, etc.   |
|-----------|--|
| 2011–2011 | C/C++ Developer, 2M-Locatel, Taastrup.   |
|           | I was employed as a $C/C++$ developer. Worked mainly on code cleanup, refactoring, bugfixing etc. Also a bit of work on streaming video.   |
| 2007–2011 | <ul> <li>C/C++ Software Developer, Cohaesio A/S, Copenhagen.</li> <li>Worked as a C/C++ software developer on two products, Keepit (online backup application) and SysOrb (server and network monitoring). Large emphasis on cross platform code.</li> <li>Items of special note: <ul> <li>Worked extensively with the TSM (Tivoli Storage Manager) API.</li> <li>Part of the original design team behind Keepit and wrote most of the original server software.</li> </ul> </li> <li>Maintained code running on multiple platforms, including; Linux, Solaris, FreeBSD, AiX, Mac OS X, Windows and others.</li> <li>Wrote and maintained a large number of PostgreSQL PL/PgSQL procedures.</li> <li>Built a large part of the Keepit GUI using the QT library.</li> </ul> |
| 2006–2007 | <ul> <li>Linux Systems Administrator, Cohaesio A/S, Copenhagen.</li> <li>Responsible for installing, maintaining and supporting a large number of mail (Postfix), web (Apache) and DNS (MyDNS &amp; Bind) servers (around 500 servers in total).</li> <li>Items of special note:</li> <li>Managed storage servers running Linux w/ XFS filesystems and fixed some XFS bugs during this time since they were causing us problems.</li> <li>I set up a new anti spam solution for mail build with Postfix and SpamAssassin.</li> </ul>   |
| 2005–2006 | <b>IT Specialist / Linux Systems Administrator</b> , <i>UNI2 A/S</i> , Ballerup.<br>Primarily engaged with maintaining the operation of more than 400 Linux servers as well as a number of Solaris and FreeBSD servers, including writing various scripts to ease ongoing maintenance.   |

2002–2005 **Systems Administrator**, *Danish Sports Confederation of Denmark*, Brøndby.

Primary job function was maintaining the operation of 15 Linux based servers (web, DNS, anti-spam, search etc) and 5 AiX servers running Oracle. Secondary responsabilities included maintaining the network for 400 users (build on Cisco equipment) and providing some end user support. Items of special note:

- I was responsible for setting up a public DNS server and migrating hundreds of internally used domains from various registras to this new in-house DNS.
- Together with a co-worker I migrated the organization from a 16Mbit Token-Ring based network with a 2Mbit Frame-Relay upstream link to 100Mbit Ethernet and a new 30Mbit FWA (Fixed Wireless Access) upstream link.
- Set up and managed Apache based shared web hosting for several sports organisations.

# 2001–2002 **C & PHP programmer**, *Eisenstein*, Copenhagen. Employed as a website back-end programmer. Main tasks were writing credit card clearing systems, content management systems, domain name registration systems and similar using C, PHP & MySQL.

- 1998–2001 **IT Consultant**, *Danish Sports Confederation of Denmark*, Brøndby. Software/Hardware support of Windows NT workstations, Linux server installation and various Linux and AIX server maintenance tasks.
- 1997–1998 **Self employed IT consultant**, Copenhagen. Did Software testing for Testhouse I/S, Internet support for Telia and Get2Net and various minor development projects for various companies.
- 1997–1997 **Mechanical Assembly person**, *Zoma Electronics*, Frederikssund. I did various mechanical assembly tasks and soldering of components onto PCBs (Printed Circuit Boards).

## Education

- 2003 Completed Cisco Certified Network Associate course.
- 2003 IBM AIX Systems Management course
- 1997 HF, VUC, Hillerød. Højere Forberedelses Eksamen.

## Computer skills

| Computer    | C, C++                 | The primary languages I usu-  |
|-------------|------------------------|-------------------------------|
| languages - |                        | ally work with.               |
| proficient  |                        |                               |
| Computer    | Python, x86 ASM, Java, | Languages I have a working    |
| languages - | PL/PgSQL, Bash, PHP    | knowledge of but that are not |
| knowledge-  |                        | my primary ones.              |
| able        |                        |                               |

| Libraries                      | STL, QT, SDL, libsigc++,<br>TSMAPI | Libraries that I've worked with<br>and believe I have a solid un-<br>derstanding of.    |
|--------------------------------|------------------------------------|---|
| Server<br>software             | Apache, Postfix, Bind              | Commonly used server soft-<br>ware that I know well.                                    |
| Version<br>control<br>software | Git, CVS                           | VCS software I've worked with extensively and know well.                                |
| Databases                      | PostgreSQL, MySQL                  | Databases that I've been in<br>charge of and have written<br>stored procedures etc for. |

#### Languages

| Danish  | Fluent |              | Native language.   |
|---------|--------|--------------|--|
| English | Almost | fluent       | Primary/preferred professional communication language.     |
| German  | Poor   | Can read Ger | man to a limited degree, can speak a little bit of German. |

#### Interests

Linux kernel I have been involved in Linux kernel development for over 15 years, dodevelopment ing drivers (initial version of HDAPS driver), small features (like the /sys/devices/\*/net/\*/carrier file), lots of bug fixes and documentation (like Documentation/applying-patches.txt). I have several hundred patches in the mainline Linux kernel currently.

Linux game I enjoy writing games, especially for the Linux platform, using SDL and/or development QT.

Scifi and I enjoy reading science fiction and listening to heavy metal and opera in my music spare time.

#### **F**xtra

• Was born April 15, 1976.

- Currently live with my girlfriend and two children (twins born in 2008) in Copenhagen, Denmark.
- I have been a Linux user since 1994 and my favorite distributions are Arch Linux and Slackware although I have also used Debian, Ubuntu SuSE and RedHat profesionally.
- I greatly prefer working in a UNIX environment as opposed to a Windows one.
- I am a very dedicated person who takes great pride in my work and I am always looking to learn new things, and I learn fast (you have to when you are a self-taught Programmer/Systems admin).
